OMO A Lost World

The New Exhibition by Canadian Fine Artist

Brian Lorimer

"My mission is to travel the globe documenting isolated peoples of a vanishing world. Through my art I will introduce you to people and their culture still struggling to exist in a world that continues to develop around them".

Lorimer recently returned from Ethiopia where he visited one of the most remote places on earth: THE OMO VALLEY. Only three degrees from the equator it was hot, dry, barren and well… inhospitable. Despite all this there are people living there much as they have for centuries,

This is their story…

Please Join us for the Opening

Friday August 5, 7-9 pm

Continuing Thru August 29.
